I-90 Soil Health Tour Featuring Jerry Hatfield & Dan Perkins

January 22nd - Rochester

Main Contact - Angela White (Olmsted SWCD) - swcd@co.olmsted.mn.us or call (507) 328-7070

Dan: Soil Health tests & Water Quality Impacts from Cover Crops at the Watershed Scale

Jerry: Soil Health, Climate Change, and Efficient Crop Production & Increasing Soil Health starts with Biology

January 23rd - Albert Lea

Main Contact—Lindsey Zeitler (Freeborn SWCD) Lindsey.Zeitler@mn.nadnet.net or call 507-373-5607 Ext. 3

Dan: Inter-seeding Covers into Knee High Corn & Annual Ryegrass, Cover Crop power house or a problem? & Water Quality Impacts from Cover Crops at the Watershed Scale

Jerry: B (biology) comes before C (chemistry) and P (physical structure) in the path to Soil Health & What is really happening in our soil and how can we change that?

January 24th - Fairmont

Main Contact – Ashley Brenke (Martin SWCD) - ashleybrenke@frontier.com or call 507-235-6680

Dan: Seeding Methods for Cover Crops – Old and New

Jerry: Soil Health, Climate Change, and Efficient Crop Production & Increasing Soil Health starts with Biology

January 25th - Heron Lake

Main Contact - Joey Boyer (Jackson County SWCD) - joey.boyer@co.jackson.mn.us or call 507-662-6682

Dan: Inter-seeding Covers into Knee High Corn & Water Quality Impacts from Cover Crops at the Watershed Scale

Jerry: B (biology) comes before C (chemistry) and P (physical structure) in the path to Soil Health & What is really happening in our soil and how can we change that?
